HATCHERIES, DEALERS AND INDEPENDENT
FLOCKS PARTICIPATING IN

THE NATIONAL TURKEY
IMPROVEMENT PLAN

1953

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Turkey Improvement Plan. Additional information regarding these participants may be obtained by writing to them, or to the official State agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or poult from the listed participants write the official State agency for a confirmation of the classification before making such purchase. Supplements to this publication, containing changes in participation, will be published periodically.

FOREWORD

The hatcheries, dealers and independent flocks listed in this publication are participating in the National Turkey Improvement Plan, according to reports submitted by the official State agencies. They are listed alphabetically by States.

The figures which appear immediately after the name of the participant indicate the variety of pouls produced. Figures encircled in parentheses indicate U. S. Certified pouls. The code used for indicating variety is as follows:

1. Broad Breasted Bronze	12. Small Bronze
2. Standard Bronze	13. Small Broad Breasted Bronze
3. White Holland	14. Silver Bronze
4. Beltsville Small White	15. Broad Breasted White Holland
5. Narragansett	16. Empire White
6. Black	17. Lancaster
7. Bourbon Red	18. Broad Breasted Beltsville Small White
8. Jersey Buff	19. Broad White
9. Royal Palm	20. Wild
10. Nebraskan	
11. Slate	

The breeding stage and pullorum class of each participant is indicated as follows:

Breeding Stage

U. S. Approved - Approved
U. S. Certified - Certified
None - #

Pullorum Class

U. S. Pullorum-Controlled - Controlled
U. S. Pullorum-Passed - Passed
U. S. Pullorum-Clean - Clean

*Indicates exclusive turkey hatcheries

The figures in the right hand column indicate the capacity of hatcheries and number of birds in flocks. The turkey hatching egg capacity is shown in the following manner: (1) Exclusive turkey hatcheries include combined incubation and hatching capacity (Manufacturer's rating for turkey eggs); (2) Where hatcheries incubate and hatch both chicken and turkey eggs and use separate machines for each, the combined incubating and hatching capacity (Manufacturer's rating for turkey eggs), of the machines used to hatch turkey eggs is reported; (3) Where chicken and turkey eggs are hatched in the same machines an estimate of the capacity used for turkey eggs is reported.

The following abbreviations indicate the products each dealer offers for sale:

CH - Eggs custom-hatched offering pouls for sale
DE - Hatching egg dealer
DP - Poult dealer
DEP - Dealer in both hatching eggs and pouls

The name and address of the contact representative and the official State agency are indicated at the beginning of the list of hatcheries for each of the cooperating States.
